Fake Bake Full
Body Spray Tan £25

Dear Customer,

Can it really be September already? We don't know about you but we can't remember Summer arriving let alone leaving! We'd like to say a big thanks to all that attended our second Mind, Body and Spirit evening especially local clairvoyant Pat Underdown.

This month's offer: September's Sizzling Special

This month you can choose from one of our results driven Elemis Advanced Anti-ageing Facials and get to try an Elemis Deep Tissue Back Massage worth £24.50 absolutely free. Choose from:

Visible Brilliance Facial

-Anti-ageing to instantly firm, rejuvenate and plump the skin whilst reducing dark circles from the eye contour.

Pro-Collagen Quartz Lift Facial

-Helps slow down the signs of premature ageing giving a firmer, uplifted, more youthful appearance with wrinkle reduction.

Tri-Enzyme Resurfacing Facial

-Targets blemishes, uneven skin tone, superficial scarring and fine lines.

Modern Skin Facial

-Rebalance and restore radiance to stressed skin, regenerating skin cells, rebalancing sebum and reducing rosacea.

All Elemis Advanced facials are priced at £57.

Reserve yours now; Elemis Christmas Box Sets from just £25

We know it's only just September but if you are like us and you like to be organised we thought we'd let you know that the Elemis Gift Sets will be landing soon.

As in previous years they are amazing value for money – usually costing half the price that you would pay for the individual items they contain – and in addition to this major saving, they come in an attractive Elemis gift box which we will also gift wrap free of charge if required.

Last year we found that the sets sold out very quickly as people were not just buying them as gifts but, realising how much money they could save, were buying them for their selves as well! So if you want to make sure you get your hands on one (or more) of these great bargains, pop into the shop and reserve yours with a £15 deposit per set. That way we'll keep them away from the prying eyes of present seekers and you won't miss out. Sets must be collected and paid for by the first week of December.

Focus on: Electrolysis

We're very pleased with our new Sterex Blend Electrolysis machine and we'd like you to try it. Let's start by answering a few questions.

Do you have unwanted hair? For a permanent solution ask us about Electrolysis – it works!

Unwanted hair is a common problem affecting most women to varying degrees their lives and prompting the use of various temporary methods of hair reduction or hair management systems. However, electrolysis is still the only proven permanent method of hair removal and many women and indeed many men have benefitted from this tried and trusted treatment.

Electrolysis, a modern increasingly popular treatment, is now even more gentle, effective and comfortable.

What is Electrolysis?

Electrolysis is a safe, effective, progressive and permanent method of removing unwanted hair. Indeed, it is the only truly permanent method of hair removal and is therefore a treatment in great demand.

With the choice of 3 methods currently available, Galvanic, Diathermy and now Blend there is something to suit everyone. Treatment is 'tailor made' to suit YOU.

How does Electrolysis work?

A fine probe (about the size of an eyelash) is inserted into the hair follicle where a tiny burst of energy is targeted at the root of the hair. This prevents nutrients feeding the hair and the hair becomes weaker and finer. After repeated treatments the hair is no longer able to grow and complete hair free results are obtained.

Each hair requires repeated treatment because each individual hair has its own growing cycle and blood supply. Electrolysis works by weakening the hair and eventually destroying it. Results take a little time, but, just like dieting, it's not the crash diet but the healthy eating plan that works in the long run.

Is Electrolysis safe?

Electrolysis was first invented in 1875 and is proven both effective and totally safe. Advanced technology has meant electrolysis has become gentler and even more comfortable, even more effective and remains an affordable, modern treatment increasingly popular today.

What will happen during my first appointment?

You will have a thorough consultation to ensure treatment is suitable and which method is best for you.

You will have the chance to ask questions about the treatment and to experience a 'taster' session and your therapist will discuss a 'Treatment Plan' with you.

Electrolysis is a safe, effective, comfortable treatment for every client with varying hair growths and suitable for all areas of the face and body. If you haven't tried electrolysis for years give it another chance – it's changed!

Initial consultation and taster is just £10 and if you go on to book and pay for a further 30 minutes or more we'll credit your electrolysis account with an extra 10 minutes of electrolysis, worth £10, absolutely free!

Thanks for joining us again this month. Until next time,

Martyna, Nicola, Nicole and Georgia.
